
DANILETS.COM → WEBSITE SPLIT & CORRECTIONS

Developer Instruction Document

PART 1: DOMAIN SEPARATION

Split the current **danilets.com** website into two completely separate standalone websites:

Current	New Domain
Danilets Detailing	daniletsdetailing.com
Danilets Cleaning	daniletscleaning.com

- Same design for both
- Each domain is fully independent
- No shared content between the two sites

PART 2: CORRECTIONS FOR BOTH DOMAINS

These corrections apply to **both** daniletsdetailing.com and daniletscleaning.com unless stated otherwise.

HOME PAGE

1. **Reviews** - Make sure reviews are up to date and each domain only shows reviews for its own business
 - daniletsdetailing.com → detailing reviews only
 - daniletscleaning.com → cleaning reviews only
2. **Services Section** - Each domain should only show services for its own business
 - daniletsdetailing.com → detailing services only
 - daniletscleaning.com → cleaning services only
3. **Color** - Change every gold color to **red** on both domains

4. **Auto & Dealership Detailing - "Learn More" button** - When pressed, it should go directly to the Services page ("Services We Provide")
-

GET QUOTE - GENERAL (BOTH DOMAINS)

5. **"Choose Your Service" landing page** - When a user clicks "Get Quote" on either website, the very first screen must be a "Choose Your Service" page:
 - **daniletsdetailing.com** → displays two options:
 - Personal
 - Business
 - **daniletscleaning.com** → displays two options:
 - Residential
 - Commercial

This selection then directs them into the correct quote flow for that service type. This must be the **very first screen** before any questions are asked.

6. **Every field must be mandatory with proper validation:**
 - Valid phone number format required
 - Valid email format required
 - Valid address format required
 - Cannot submit or continue with invalid entries
7. **After pressing Continue** - Page must automatically scroll to the top on both desktop and mobile
8. **Progress warning** - When a user is in the middle of filling out a quote, display a popup warning if they try to navigate away:
 - *"Are you sure you want to leave? If yes, you'll lose your progress."*
9. **Get Quote button under Services pages** - When pressing Get Quote from the Detailing or Cleaning services page, it should go directly to that business's Get Quote form
 - Detailing Get Quote → goes straight to detailing quote

- Cleaning Get Quote → goes straight to cleaning quote (starting at "Choose Your Service")

10. **Step indicators** - Every page in the Get Quote flow must show step progress

- Example: Step 1 of 9, Step 2 of 9, etc.

11. **Section titles must be consistent** across all pages and all options

12. **Submit button** - Change "Submit Cleaning Request" to just "**Submit**"

PART 3: CORRECTIONS FOR daniletscleaning.com ONLY

GET QUOTE - CLEANING - GENERAL

13. **First question after "Choose Your Service"** - Change from:

- Current: *"What type of property is this?"*
- Corrected: *"Is this for a residential or commercial property?"*

14. **"Other" option** - Wherever "Other" appears, make sure users can type a written response. Minimum character limit must allow **1 character** (currently requires 2)

GET QUOTE - CLEANING - RESIDENTIAL

15. **Section title** - Change from:

- Current: *"Contact Details"*
- Corrected: *"Contact Information"*

16. **Step titles for Residential flow must be:**

1. Contact Information
2. Project Type
3. Property Information
4. Project Information
5. Budget
6. Review & Submit

17. **Contact Information section** - Add an **address field** here (alongside name and phone number). This applies to **all project type choices** the user selects
18. **Project Type - "Other" field** - Must allow user to continue with just **1 character** typed (currently requires 2)
-

GET QUOTE - CLEANING - COMMERCIAL

AIRBNB/RENTAL PROPERTIES:

19. Combine the following into one page:

- How many units do you need cleaned?
- Property type? (Select all that apply)
- Average square footage per unit? *(remove "optional" label)*
- Average number of bedrooms per unit? *(remove "optional" label)*
- Average number of bathrooms per unit? *(remove "optional" label)*

20. Combine the following into one page:

- Turnover frequency?
- What is your budget per unit?
- Do you need linen/laundry services?

21. **DELETE** duplicate "Other (please specify)" - it appears twice, remove one

22. **Progress bar** - Fix the gold progression bar. It currently stays the same from "Property type?" all the way to "Do you want us to provide cleaning supplies and equipment?" - it must update properly at each step

POST CONSTRUCTION:

23. Combine the following into one page:

- Property square footage?
- How many floors/levels?
- Property type?

24. Combine the following into one page:

- Frequency of cleaning?
- What is your budget?

OTHER:

25. **"Other - please specify"** - Must allow user to continue with just **1 character** typed

26. **Combine the following into one page:**

- Property square footage?
- How many floors/levels? *(remove "optional" label)*
- How many restrooms? *(remove "optional" label)*

27. **"Please specify"** for "Other" and "Specialized Cleaning" options - Fix so the text field actually appears when selected (currently not showing)

28. **Combine the following into one page:**

- Is this an ongoing contract or one-time service?
- By what date does the service need to start?
- Is this project time-sensitive or urgent?
- If yes, please explain
